## **DETAILED ACTION**

### ***Response to Amendment***

1. The finality of the rejection of the last Office action has been withdrawn and prosecution has been reopened. A non final office action on the merits follows:

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 23 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 23 positively recites the particulate matter as coal or fly ash, because the particulate matter is not positively recited in independent claim 12, claim 23 is indefinite.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 12-15 and 23-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Alack USP 4,848,975.

Art Unit: 3651

See the attached marked up drawing sheets 2 of 4 and 3 of 4 depicting the claimed features.
